POLE POSITION

"GRAND PRIX" QUALIFICATION RUN

To qualify for the "GRAND PRIX", the driver must pass a preliminary race within five time limit (Operation Adjusted). The driver's time will determine starting position and the starter has two times the higher five bonus points, so will be awarded.

EXCITEMENT

The handling and control of a finely tuned engine, well-balanced chassis, set eyes at speed, the roar of engines, the feel of power, behind the wheel, unprecedented driving. POLE POSITION!!

PERFORMANCE

Using the split response of POLE POSITION

TCM's Acceleration Power, Braking Power, Steering Power, etc., gives the player the chance to test his speed versus against in-profile odds. High speed driving, skidding, weaving in and out, so much the better for THAT PERFORMANCE!!

THE FEELING OF A "30-SCREEN"

Going at the speed of 300 kph, curves pop up at incredible speed. Don't get off-road, so you can't see out of nowhere. "POLE POSITION" is computerized image in perspective gives the player the feeling he is there, at the race track.

4-Channel Speaker System

The roar of the (engine), revving up, jolting, speeding, slowing, then skidding re-revving (the player) through a 4-Channel

Speaker System

BRAKING POWER

Brakes: HANDLE WITH CARE!!

EXTENDED PLAY

Extended play is awarded for going once around the track. Four laps around (against the CHALLENGE FLAG) FINISH LINE!!
